

StatsBomb API Match Player Stats Structure and Data Specification v8.0.0

[StatsBomb API - last updated 29 July 2026]

This document describes the API used to request stats (as found in Statsbomb-IQ) for a player for a match to which the user has licensed access. Credentials need to be supplied as described in the general API notes.

Summary of Changes for API v8.0.0

New fields:

- player_match_transition_possession_rate: Proportion of the player's possessions that remain in the In Possession Transition state. Ratio in [0, 1]. Null when model output is absent.
- player_match_transition_xg: Expected goals the player generates within the In Possession Transition state.
- player_match_transition_obv: On-ball value the player generates within the In Possession Transition state.
- player_match_avg_player_possession_directness: Average player_possession_directness across the player's possessions.
- player_match_avg_player_possession_directness_in_control: Average player possession directness on events where the possession has reached control_degree = 1 (settled play).
- player_match_avg_player_possession_directness_in_transition: Average player possession directness on events where is_transition = true (unsettled play).

Table of Contents

Summary of Changes for API v8.0.0	1
Accessing the API	1
Data Format	2
Response	3

Accessing the API

The API can be accessed by making a request to <https://data.statsbombservices.com/api/v8/matches/?/player-stats> . The question mark should be replaced by the desired match ID.

An R package has been written for users to conveniently access the API and clean the data. The R package is available at <https://github.com/statsbomb/StatsBombR>.

A python package has also been created for the same purpose. It is available at <https://github.com/statsbomb/statsbombpy>.

Data Format

The API data is read in JSON format, where each observation is one, unique event, with all variable values corresponding to that event and that event type included. Unlike the CSV format, JSON format allows for nested data frames, and thus, observations will never be replicated.

Response

The response will be in JSON format. The response is an array containing statistical information.

Column	Type	Description
player_id	integer	The id of the player
player_name	string	The full name of the player
team_id	integer	The id of the team
team_name	string	The full name of the player's team
match_id	integer	The id of the match
player_match_aerial_ratio	percentage	Percentage of aerial duels a player enters that they win
player_match_aerials	double	Number of aerial duels
player_match_aggressive_actions	double	Tackles, pressure events and fouls recorded within 2 seconds of an opposition ball receipt
player_match_assists	double	Number of assists.
player_match_op_assists	double	Number of open play assists
player_match_backward_passes	double	Number of backward passes
player_match_ball_recoveries	integer	Number of ball recoveries
player_match_box_cross_ratio	percentage	What percentage of a player's completed passes into the box are crosses. See Event Specification for details of cross location definition.
player_match_ccaa	percentage	Claims or CCAA% (Claimable Collection Attempts over Average), is a measure of how likely the goalkeeper is to attempt to claim a "claimable" pass, versus the average goalkeeper attempted claim rate
player_match_challenge_ratio	percentage	Percentage of time a player makes a tackle when going into a duel vs getting dribbled past.
player_match_claim_success	percentage	How many of a goalkeeper's claim attempts are successful
player_match_clearances		Number of clearances.
player_match_counterpressure_duration_avg	double	Average duration of counterpressures

player_match_counterpressure_duration_total	double	Total duration of counterpressures
player_match_counterpressured_action_fails	double	Number of counterpressures attempted that failed.
player_match_counterpressures	double	Number of counterpressures. Counterpressures are pressures exerted within 5 seconds of a turnover.
player_match_crosses	double	Completed crosses.
player_match_crosses_into_box	double	Number of crosses into the box
player_match_crossing_ratio	percentage	Percentage of attempted crosses that are successful and received by a teammate
player_match_da_aggressive_distance	double	An average value of how far forward from the goal a goalkeeper is coming to perform defensive actions
player_match_deep_completions	integer	Number of deep completions
player_match_deep_progressions	double	Passes and dribbles/carries into the opposition final third.
player_match_dispossessions	double	Number of times a player loses the ball by getting tackled.
player_match_dribbled_past	double	How often a player fails a challenge and is dribbled past.
player_match_dribbles	double	How often a player successfully dribbles past an opponent
player_match_dribbles_faced	double	How often a player faces a dribble
player_match_op_f3_backward_passes	double	Number of open play, final third backward passes
player_match_op_f3_forward_passes	double	Number of open play, final third forward passes
player_match_op_f3_passes	double	Number of open play, final third passes
player_match_op_f3_sideways_passes	double	Number of open play, final third sideways passes
player_match_fhalf_ball_recoveries	integer	How many ball recoveries the player made in the opposition (final) half of the pitch
player_match_forward_passes	double	How many forward passes a player makes
player_match_fouls	double	How many fouls a player commits
player_match_fouls_won	double	How many times a player is fouled.
player_match_gk_positioning_error	double	How far on average a goalkeeper is from the optimal position for facing a shot
player_match_goals	double	All goals scored by the player, including penalties.
player_match_goals_conceded	integer	How many goals a goalkeeper conceded (doesn't include penalties or own goals)

player_match_np_goals	double	All goals scored by the player, excluding penalties.
player_match_gsaa	double	How many goals did the keeper save/concede versus expectation (post-shot xG faced)
player_match_gsaa_ratio	percentage	The measure of goals saved above average, as a percentage of shots faced by the goalkeeper
player_match_interceptions	double	Number of interceptions.
player_match_key_passes	double	Passes that create shots for teammates. Can also be seen to be referred to as "shot assists" or "chances created"
player_match_op_key_passes	double	Open play passes that create shots for teammates. Can also be seen to be referred to as "shot assists" or "chances created"
player_match_long_ball_ratio	percentage	Percentage of attempted long balls that are actually completed.
player_match_long_balls	double	Number of completed long balls
player_match_minutes	integer	The number of minutes played this match
player_match_obv	double	On Ball Value Added (net) total (all event types)
player_match_obv_pass	double	On Ball Value Added (net) from Passes
player_match_obv_shot	double	On Ball Value Added (net) from Shots
player_match_obv_defensive_action	double	On Ball Value Added (net) from Defensive Actions
player_match_obv_dribble_carry	double	On Ball Value Added (net) from Dribbles and Carries
player_match_obv_gk	double	On Ball Value Added (net) Goalkeeper
player_match_passes	double	Number of attempted passes
player_match_op_passes	double	Number of attempted passes in open play.
player_match_passes_inside_box	double	Passes completed starting and ending inside the box.
player_match_passes_into_box	double	Successful passes into the box from outside the box.
player_match_op_passes_into_box	double	Successful passes into the box from outside the box (open play).
player_match_passing_ratio	percentage	Percentage of all passes attempted that were completed.
player_match_penalties_faced	integer	Number of penalties faced
player_match_penalties_conceded	integer	Number of penalties faced that resulted in goals
player_match_penalties_won	double	Number of penalties won.
player_match_positive_outcome_score	percentage	How frequently is the player involved in sequences that resolve with a positive outcome (shot, free kick in the attacking half or a corner) while on the pitch

player_match_possession	percentage	How much possession a player has per match.
player_match_pressure_duration_avg	double	Average duration of pressures.
player_match_pressure_duration_total	double	Total duration of pressures.
player_match_pressure_regains	double	Times a player won the ball back within 5 seconds of the player pressuring an opponent.
player_match_pressured_action_fails	double	Times a player failed to win the ball back within 5 seconds of the player pressuring an opponent.
player_match_pressured_long_balls	double	Number of clearances or long balls attempted while under pressure.
player_match_pressures	double	The number of times a player pressures an opposition player.
player_match_np_psxg	double	Post Shot xG earned from on-target shots
player_match_npot_psxg_faced	double	How much non-penalty on-target post-shot xG a goalkeeper faced
player_match_save_ratio	percentage	Percentage of on-target shots that were saved by the goalkeeper
player_match_shot_touch_ratio	percentage	The amount of shots a player takes as a proportion of their touches of the ball.
player_match_np_shots	double	Number of shots not from penalties
player_match_op_shots	double	Number of shots from open play
player_match_shots_blocked	double	Number of shots blocked
player_match_np_shots_on_target	double	Number of non-penalty shots on target
player_match_npot_shots_faced	double	How many non-penalty on-target shots a goalkeeper faced
player_match_sideways_passes	double	Number of sideways passes
player_match_sp_xa	double	xG assisted from set pieces
player_match_successful_aerials	double	Number of successful aerials
player_match_successful_crosses	double	Number of successful crosses
player_match_successful_long_balls	double	Number of successful long balls
player_match_successful_passes	double	Number of successful passes
player_match_tackles	double	Successful challenges made.
player_match_through_balls	double	A completed pass splitting the defence for a teammate to run onto.
player_match_touches	double	Number of successful footed touches

player_match_touches_inside_box	double	Successful footed touches inside the box (including shots)
player_match_turnovers	double	How often a player loses the ball via a miscontrol or a failed dribble.
player_match_unpressured_long_balls	double	Times a player plays a long ball while not under pressure
player_match_xa	double	xG assisted.
player_match_op_xa	double	xG assisted from open play.
player_match_np_xg	double	xG assisted (not from penalties).
player_match_np_xg_per_shot	double	xG assisted per shot (not from penalties).
player_match_xgbuildup	double	A model that attributes the xG value of the final shot to all players involved in the entire possession. The buildup version omits xG and xG Assisted to focus on possession work prior to the end of the chain
player_match_op_xgbuildup	double	xG buildup in open play
player_match_xgbuildup_per_possession	double	xG buildup per possession
player_match_op_xgbuildup_per_possession	double	xG buildup per possession (open play)
player_match_xgchain	double	A model that attributes the xG value of the final shot to all players involved in the entire possession.
player_match_op_xgchain	double	xG chain in open play
player_match_xgchain_per_possession	double	xG chain per possession
player_match_op_xgchain_per_possession	double	xG chain per possession (open play)
player_match_average_space_received_in	float	Average value of space for all ball receipts
player_match_average_fhalf_space_received_in	float	Average value of space for all ball receipts in the opposition half of the pitch
player_match_average_f3_space_received_in	float	Average value of space for all ball receipts in the final third of the pitch
player_match_ball_receipts_in_space_10	integer	Percentage of ball receipts that are made in more than 10m of space (subset of 2m & 5m category)
player_match_ball_receipts_in_space_2	integer	Percentage of ball receipts that are made in more than 2m of space
player_match_ball_receipts_in_space_5	integer	Percentage of ball receipts that are made in more than 5m of space (subset of 2m category)

player_match_fhalf_ball_receipts_in_space_10	integer	Percentage of ball receipts in the opposition half of the pitch that are made in more than 10m of space (subset of 2m & 5m category)
player_match_fhalf_ball_receipts_in_space_2	integer	Percentage of ball receipts in the opposition half of the pitch that are made in more than 2m of space
player_match_fhalf_ball_receipts_in_space_5	integer	Percentage of ball receipts in the opposition half of the pitch that are made in more than 5m of space (subset of 2m category)
player_match_f3_ball_receipts_in_space_10	integer	Percentage of ball receipts in the final third of the pitch that are made in more than 10m of space (subset of 2m & 5m category)
player_match_f3_ball_receipts_in_space_2	integer	Percentage of ball receipts in the final third of the pitch that are made in more than 2m of space
player_match_f3_ball_receipts_in_space_5	integer	Percentage of ball receipts in the final third of the pitch that are made in more than 5m of space (subset of 2m category)
player_match_lbp	integer	Line Breaking Passes attempted in open play
player_match_lbp_completed	integer	Line Breaking Passes completed in open play
player_match_fhalf_lbp_completed	integer	Line Breaking Passes completed in the opposition half of the pitch in open play
player_match_f3_lbp_completed	integer	player_match_f3_lbp_completed
player_match_fhalf_lbp	integer	Line Breaking Passes attempted in the opposition half of the pitch in open play
player_match_f3_lbp	integer	player_match_f3_lbp
player_match_obv_lbp	float	Pass-OBV from Line Breaking Passes
player_match_fhalf_obv_lbp	float	Pass-OBV from Line Breaking Passes in opposition half
player_match_f3_obv_lbp	float	Pass-OBV from Line Breaking Passes in final third
player_match_lbp_received	integer	Line Breaking passes received in open play
layer_match_fhalf_lbp_received	integer	Line Breaking Passes received in the opposition half in open play
player_match_f3_lbp_received	integer	Line Breaking Passes received in the final third in open play
player_match_average_lbp_to_space_distance	float	Average space of pass recipient for all completed Line Breaking Passes
player_match_fhalf_average_lbp_to_space_distance	float	Average space of pass recipient for all completed Line Breaking Passes in the opposition half of the pitch

player_match_f3_average_lbp_to_space_distance	float	Average space of pass recipient for all completed Line Breaking Passes in the final third of the pitch
player_match_lbp_to_space_10_received	integer	Received Line Breaking Pass in more than 10m of space (subset of 2m & 5m category)
player_match_fhalf_lbp_to_space_10_received	integer	Received Line Breaking Pass in more than 10m of space (subset of 2m & 5m category) in the opposition half of the pitch
player_match_f3_lbp_to_space_10_received	integer	Received Line Breaking Pass in more than 10m of space (subset of 2m & 5m category) in the final third of the pitch
player_match_lbp_to_space_2_received	integer	Received Line Breaking Pass in more than 2m of space
player_match_fhalf_lbp_to_space_2_received	integer	Received Line Breaking Pass in more than 2m of space in the opposition half of the pitch
player_match_f3_lbp_to_space_2_received	integer	Received Line Breaking Pass in more than 2m of space in the final third of the pitch
player_match_lbp_to_space_5_received	integer	Received Line Breaking Pass in more than 5m of space (subset of 2m category)
player_match_fhalf_lbp_to_space_5_received	integer	Received Line Breaking Pass in more than 5m of space (subset of 2m category) in the opposition half of the pitch
player_match_f3_lbp_to_space_5_received	integer	Received Line Breaking Pass in more than 5m of space (subset of 2m category) in the final third of the pitch
player_match_average_lbp_to_space_received_distance	float	Average space of pass recipient for all received Line Breaking Passes
player_match_fhalf_average_lbp_to_space_received_distance	float	Average space of pass recipient for all received Line Breaking Passes in the opposition half of the pitch
player_match_f3_average_lbp_to_space_received_distance	float	Average space of pass recipient for all received Line Breaking Passes in the final third of the pitch
player_match_lbp_to_space_10	integer	Completed Line Breaking Pass received in more than 10m of space (subset of 2m & 5m category)
player_match_fhalf_lbp_to_space_10	integer	Completed Line Breaking Pass received in more than 10m of space (subset of 2m & 5m category) in the opposition half of the pitch
player_match_f3_lbp_to_space_10	integer	Completed Line Breaking Pass received in more than 10m of space (subset of 2m & 5m category) in the final third of the pitch
player_match_lbp_to_space_2	integer	Completed Line Breaking Pass received in more than 2m of space

player_match_fhalf_lbp_to_space_2	integer	Completed Line Breaking Pass received in more than 2m of space in the opposition half of the pitch
player_match_f3_lbp_to_space_2	integer	Completed Line Breaking Pass received in more than 2m of space in the final third of the pitch
player_match_lbp_to_space_5	integer	Completed Line Breaking Pass received in more than 5m of space (subset of 2m category)
player_match_fhalf_lbp_to_space_5	integer	Completed Line Breaking Pass received in more than 5m of space (subset of 2m category) in the opposition half of the pitch
player_match_f3_lbp_to_space_5	integer	Completed Line Breaking Pass received in more than 5m of space (subset of 2m category) in the final third of the pitch
player_match_passes_360	integer	Passes with 360 data
player_match_obv_passes_360	float	Pass-OBV with 360 data
player_match_fhalf_passes_360	integer	Passes in the opposition half of the pitch with 360 data
player_match_fhalf_obv_passes_360	float	Pass-OBV in the opposition half of the pitch with 360 data
player_match_f3_passes_360	integer	Passes in the final third of the pitch with 360 data
player_match_f3_obv_passes_360	float	Pass-OBV in the final third of the pitch with 360 data
player_match_ball_receipts_360	integer	Ball receipts with 360 data
player_match_fhalf_ball_receipts_360	integer	Ball receipts in the opposition half of the pitch with 360 data
player_match_f3_ball_receipts_360	integer	Ball receipts in the final third of the pitch with 360 data
player_match_360_minutes	float	The number of minutes played for this match, or 0 for matches which do not have 360 data
player_match_defensive_actions	integer	Tackles, pressure events and fouls recorded
player_match_defensive_responsibility_actions	float	The number of defensive actions a player made in response to attacking events.
player_match_expected_defensive_actions	float	Responsibility-based expectation of how many defensive actions a player should be involved in, given the situations faced while on the pitch. Measures defensive opportunity / load.
player_match_defensive_actions_above_expectation	float	Difference between actual defensive actions performed and expected defensive actions. Measures defensive aggressiveness or passivity relative to opportunity.
player_match_obv_conceded_responsibility_weighted	float	The OBV conceded by a player weighted by their defensive responsibility probability to attacking events.

player_match_predicted_headers	float	Predicted headers won in a match, based on the difficulty of each duel.
player_match_transition_possession_rate	double	Proportion of the player's possessions that remain in the In Possession Transition state. Ratio in [0, 1]. Absent or null when model output is unavailable.
player_match_transition_xg	double	Expected goals the player generates within the In Possession Transition state.
player_match_transition_obv	double	On-ball value the player generates within the In Possession Transition state.
player_match_avg_player_possession_directness	double	Average player_possession_directness over the player's on-ball events (count-weighted). Unbounded and can be negative, unlike the team's [0, 1] possession_directness.
player_match_avg_player_possession_directness_in_control	double	Average player possession directness on events where the possession has reached control_degree = 1 (settled play).
player_match_avg_player_possession_directness_in_transition	double	Average player possession directness on events where is_transition = true (unsettled play).

Data Version 8.0.0

Added fields:

- player_match_transition_possession_rate
- player_match_transition_xg
- player_match_transition_obv
- player_match_avg_player_possession_directness
- player_match_avg_player_possession_directness_in_control
- player_match_avg_player_possession_directness_in_transition

Data Version 7.0.0

Added fields:

- player_match_obv_conceded_responsibility_weighted
- player_match_predicted_headers

Data Version 6.0.0

Added fields:

- player_match_defensive_responsibility_actions
- player_match_expected_defensive_actions
- player_match_defensive_actions_above_expectation

Data Version 4.0.0

Added fields:

- player_match_defensive_actions

Data Version 3.0.0

New fields for metrics that use 360 data:

- *player_match_average_space_received_in*
- *player_match_average_fhalf_space_received_in*
- *player_match_average_f3_space_received_in*
- *player_match_ball_receipts_in_space_10*
- *player_match_ball_receipts_in_space_2*
- *player_match_ball_receipts_in_space_5*
- *player_match_fhalf_ball_receipts_in_space_10*
- *player_match_fhalf_ball_receipts_in_space_2*
- *player_match_fhalf_ball_receipts_in_space_5*
- *player_match_f3_ball_receipts_in_space_10*
- *player_match_f3_ball_receipts_in_space_2*
- *player_match_f3_ball_receipts_in_space_5*
- *player_match_lbp*
- *player_match_lbp_completed*
- *player_match_fhalf_lbp_completed*
- *player_match_f3_lbp_completed*
- *player_match_fhalf_lbp*
- *player_match_f3_lbp*
- *player_match_obv_lbp*
- *player_match_fhalf_obv_lbp*
- *player_match_f3_obv_lbp*
- *player_match_lbp_received*
- *layer_match_fhalf_lbp_received*

- *player_match_f3_lbp_received*
- *player_match_average_lbp_to_space_distance*
- *player_match_fhalf_average_lbp_to_space_distance*
- *player_match_f3_average_lbp_to_space_distance*
- *player_match_lbp_to_space_10_received*
- *player_match_fhalf_lbp_to_space_10_received*
- *player_match_f3_lbp_to_space_10_received*
- *player_match_lbp_to_space_2_received*
- *player_match_fhalf_lbp_to_space_2_received*
- *player_match_f3_lbp_to_space_2_received*
- *player_match_lbp_to_space_5_received*
- *player_match_fhalf_lbp_to_space_5_received*
- *player_match_f3_lbp_to_space_5_received*
- *player_match_average_lbp_to_space_received_distance*
- *player_match_fhalf_average_lbp_to_space_received_distance*
- *player_match_f3_average_lbp_to_space_received_distance*
- *player_match_lbp_to_space_10*
- *player_match_fhalf_lbp_to_space_10*
- *player_match_f3_lbp_to_space_10*
