

StatsBomb API Match Team Stats Structure and Data Specification v4.0.0

[StatsBomb API - last updated 29 July 2026]

This document describes the API used to request stats (as found in Statsbomb-IQ) for a team for a match to which the user has licensed access. Credentials need to be supplied as described in the general API notes.

Summary of Changes for API v4.0.0

- Added Phases of Play transition metrics (time in transition/control, transition xG/OBV and their conceded variants, transition possession rate) and team possession-directness averages

Table of Contents

Summary of Changes for API v4.0.0	1
Accessing the API	1
Data Format	2
Response	3

Accessing the API

The API can be accessed by making a request to <https://data.statsbomb.com/api/v4/matches/?/team-stats> . The question mark should be replaced by the desired match ID.

An R package has been written for users to conveniently access the API and clean the data. The R package is available at <https://github.com/statsbomb/StatsBombR>.

Data Format

The API data is read in JSON format, where each observation is one, unique event, with all variable values corresponding to that event and that event type included. Unlike the CSV format, JSON format allows for nested data frames, and thus, observations will never be replicated.

Response

The response will be in JSON format. The response is an array containing statistical information.

Column	Type	Description
account_id	integer	
match_id	integer	The id of the match
team_id	integer	The id of the team
team_name	text	The full name of the team
opposition_id	integer	The id of the opposition
opposition_name	text	The full name of the opposition
competition_id	integer	The id of the competition
competition_name	string	The full name of the competition
season_id	integer	The id of the season
season_name	string	A description of the season (e.g. "2020/2021")
team_female	boolean	Female team?
team_match_gd	integer	Team goals scored minus team goals conceded
team_match_xgd	double	Team xG minus Team xG conceded
team_match_np_shots	integer	Number of non-penalty shots
team_match_op_shots	integer	Number of open play shots
team_match_op_shots_outside_box	integer	Number of shots from outside the box in open play

team_match_sp_shots	integer	Shots generated from set piece situations
team_match_np_xg	double	Total expected goal value of all non-penalty shots
team_match_op_xg	double	Total expected goal value of shots from open play
team_match_sp_xg	double	Total expected goals from set pieces
team_match_np_xg_per_shot	double	Non-penalty expected goals per shot.
team_match_np_shot_distance	double	Average distance from goal of non-penalty shots.
team_match_op_shot_distance	double	Average distance from goal (open play).
team_match_sp_shot_distance	double	Average distance from goal (set piece).
team_match_possessions	smallint	Number of possessions.
team_match_possession	double	Possession average
team_match_directness	double	A ratio of the distance towards goal from the start of a possession that ended in a shot, divided by the total distance travelled in buildup to the shot.
team_match_pace_towards_goal	double	The average speed of buildup for possessions that end in shots, from the start of possession to shot (m/s)
team_match_gk_pass_distance	double	Average length of pass from a goalkeeper when playing out from the back.
team_match_gk_long_pass_ratio	double	Percentage of goalkeeper long passes that are completed.
team_match_box_cross_ratio	double	What percentage of a team's passes into the box are crosses.
team_match_passes_inside_box	integer	Passes completed inside the box.
team_match_defensive_distance	double	The average distance from a team's own goal from which it makes defensive actions.

team_match_ppda	double	How many passes does a team allow the opponent before making a defensive action (tackle, interception, foul). An indicator of pressing intensity this metric is defined in attacking areas ie 40% of the length of the pitch away from a team's own goal and forwards.
team_match_defensive_distance_ppda	double	The average distance from a team's own goal from which it makes defensive actions (passes per defensive action).
team_match_opp_passing_ratio	double	Passing completion rate.
team_match_opp_final_third_pass_ratio	double	Opposition's final third completion rate.
team_match_np_shots_conceded	integer	Non-penalty shots conceded.
team_match_op_shots_conceded	integer	Number of shots conceded in open play.
team_match_op_shots_conceded_outside_box	integer	Shots conceded from outside the box in open play.
team_match_sp_shots_conceded	integer	Number of shots conceded from set pieces.
team_match_np_xg_conceded	double	Cumulative xG value of non_penalty shots conceded.
team_match_op_xg_conceded	double	Expected goal value of shots from open play conceded.
team_match_sp_xg_conceded	double	Cumulative xG value of shots conceded from set pieces.
team_match_np_xg_per_shot_conceded	double	Average expected goal value per shot conceded (no penalties)
team_match_np_shot_distance_conceded	double	Average distance from goal of opponent non-penalty shots.
team_match_op_shot_distance_conceded	double	Average distance from goal of opponent open play shots.
team_match_sp_shot_distance_conceded	double	Average distance from goal of opponent shots (open play).
team_match_deep_completions_conceded	integer	Successful conceded passes within 20 metres of the opposition goal.

team_match_passes_inside_box_conceded	integer	Opponent passes completed inside the box.
team_match_corners	integer	Number of corners.
team_match_corner_xg	double	Expected goal value of shots created from corners.
team_match_xg_per_corner	double	Expected goal value of shots created per corner.
team_match_free_kicks	integer	Number of indirect free kicks.
team_match_free_kick_xg	double	Expected goal value of shots created from indirect free kicks.
team_match_xg_per_free_kick	double	Expected goal value of shots created per indirect free kick.
team_match_direct_free_kicks	integer	Number of direct free kick shots & shots from direct free kick situations (ie. quick rebounds)
team_match_direct_free_kick_xg	double	Expected goal value of shots from direct free kick situations (includes quick rebounds).
team_match_xg_per_direct_free_kick	double	Expected goal value of shots created per direct free kick.
team_match_throw_ins	integer	Number of throw-ins.
team_match_throw_in_xg	double	Expected goal value of shots created from throw-ins.
team_match_xg_per_throw_in	double	Expected goal value of shots created per throw-in.
team_match_ball_in_play_time	double	Actual clock time the ball spends in play
team_match_counter_attacking_shots	integer	Shots generated within 15 seconds of a possession that originates from their own half.
team_match_high_press_shots	integer	Shots generated from possessions that were won within 5 seconds of a defensive action (pressure/tackle/interception/blocked pass) in the opposition's half.

team_match_shots_in_clear	integer	Shots generated when only the opponent's goalkeeper was in between shot-taker and goal. (Within a cone between the shot-taker and the goalposts.)
team_match_counter_attacking_shots_conceded	integer	Shots generated within 15 seconds of a possession that originates from opponent's own half.
team_match_shots_in_clear_conceded	integer	Shots generated when only a team's goalkeeper was in between shot-taker and goal.
team_match_aggressive_actions	integer	Tackles, pressure events and fouls a team makes within 2 seconds of an opposition ball receipt.
team_match_aggression	double	The proportion of an opponent's pass receipts that are tackled, fouled or pressured within 2 seconds.
team_match_goals	integer	Goals scored
team_match_own_goals	integer	Own goals
team_match_penalty_goals	integer	Penalty goals scored
team_match_goals_conceded	integer	Goals conceded
team_match_opposition_own_goals	integer	Opposition own goals
team_match_penalty_goals_conceded	integer	Penalty goals conceded
team_match_shots_from_corners	integer	Shots taken from corners.
team_match_goals_from_corners	integer	Goals from corners.
team_match_shots_from_free_kicks	integer	Shots taken from free kicks
team_match_goals_from_free_kicks	integer	Goals from free kicks
team_match_direct_free_kick_goals	integer	Goals from direct free kicks

team_match_shots_from_direct_free_kicks	integer	Shots taken from direct free kicks
team_match_shots_from_throw_ins	integer	Shots taken from throw ins
team_match_goals_from_throw_ins	integer	Goals from throw ins
team_match_direct_free_kick_goals_conceded	integer	Goals conceded from direct free kicks
team_match_shots_from_direct_free_kicks_conceded	integer	Shots conceded from direct free kicks
team_match_corners_conceded	integer	Number of opponent corners conceded.
team_match_corner_xg_conceded	double	Expected goal value of opponent shots conceded from corners.
team_match_shots_from_corners_conceded	integer	Shots conceded from corners.
team_match_goals_from_corners_conceded	integer	Goals conceded from corners.
team_match_free_kicks_conceded	integer	Free kicks conceded
team_match_free_kick_xg_conceded	double	Expected goal value of opponent shots conceded from free kicks
team_match_shots_from_free_kicks_conceded	integer	Opponent shots conceded from indirect free kicks.
team_match_goals_from_free_kicks_conceded	integer	Opponent goals conceded from indirect free kicks.
team_match_direct_free_kicks_conceded	integer	Opponent direct free kicks conceded.
team_match_direct_free_kick_xg_conceded	double	Expected goal value of opponent shots from direct free kick situations (includes quick rebounds).
team_match_throw_ins_conceded	integer	throw ins conceded
team_match_throw_in_xg_conceded	double	Expected goal value of opponent shots conceded from throw-ins.

team_match_shots_from_throw_ins_conceded	integer	Shots conceded from throw-ins.
team_match_goals_from_throw_ins_conceded	integer	Goals conceded from throw-ins.
team_match_corner_shot_ratio	double	Number of shots per corner.
team_match_corner_goal_ratio	double	Number of goals per corner.
team_match_free_kick_shot_ratio	double	Number of shots per free kick.
team_match_free_kick_goal_ratio	double	Number of goals per free kick.
team_match_direct_free_kick_goal_ratio	double	Number of goals per direct free kick.
team_match_throw_in_shot_ratio	double	Number of shots per throw in
team_match_throw_in_goal_ratio	double	Number of goals per throw in
team_match_xg_per_corner_conceded	double	Expected goal value of opponent shots conceded per corner.
team_match_corner_shot_ratio_conceded	double	Number of shots conceded per opponent corner.
team_match_corner_goal_ratio_conceded	double	Number of opponent goals conceded per corner taken
team_match_xg_per_free_kick_conceded	double	Expected goal value of opponent shots conceded per indirect free kick.
team_match_free_kick_shot_ratio_conceded	double	Number of opponent shots conceded per free kick.
team_match_free_kick_goal_ratio_conceded	double	Number of opponent goals conceded per free kick.
team_match_xg_per_direct_free_kick_conceded	double	Expected goal value of opponent shots created per direct free kick.
team_match_direct_free_kick_goal_ratio_conceded	double	Opponent goals conceded per direct free kick.

team_match_xg_per_throw_in_conceded	double	Expected goal value of opponent shots conceded per throw-in.
team_match_throw_in_shot_ratio_conceded	double	Number of shots conceded per throw-in.
team_match_throw_in_goal_ratio_conceded	double	Number of goals conceded per throw-in.
team_match_direct_free_kick_shot_ratio	double	Number of shots per direct free kick.
team_match_direct_free_kick_shot_ratio_conceded	double	Number of opponent shots conceded per direct free kick.
team_match_sp	integer	Number of set pieces
team_match_xg_per_sp	double	Expected goal value of shots per set piece taken
team_match_sp_shot_ratio	double	Number of shots per set piece.
team_match_sp_goals	integer	Number of goals from set pieces.
team_match_sp_goal_ratio	double	Goals per set piece
team_match_sp_conceded	integer	Number of set pieces conceded
team_match_xg_per_sp_conceded	double	Expected goal value of opponent shots conceded per set piece.
team_match_sp_shot_ratio_conceded	double	Number of opponent shots per set piece conceded.
team_match_sp_goals_conceded	integer	Number of opponent goals per set piece conceded.
team_match_sp_goal_ratio_conceded	double	Opponent goals per set piece conceded
team_match_penalties_won	integer	Number of penalties won.
team_match_penalties_conceded	integer	Number of penalties conceded
team_match_completed_dribbles	integer	Number of dribbles completed by a team.

team_match_failed_dribbles	integer	Dribbles attempted that were unsuccessful.
team_match_total_dribbles	integer	Total attempts to beat the opponent with the ball at their feet
team_match_dribble_ratio	double	Percentage of dribbles that were completed
team_match_completed_dribbles_conceded	integer	Number of dribbles completed by the opposition.
team_match_failed_dribbles_conceded	integer	Number of dribbles attempted by the opposition that were unsuccessful.
team_match_total_dribbles_conceded	integer	Total opponent attempts to beat a team with the ball at their feet
team_match_opposition_dribble_ratio	double	Percentage of opponent dribbles that were completed
team_match_high_press_shots_conceded	integer	Shots conceded from possessions that were lost within 5 seconds of a opposition defensive action (pressure/tackle/interception/blocked pass) in the team's half.
team_match_np_gd	integer	Goals scored minus goals conceded (not including penalties)
team_match_np_xgd	double	xG minus xG conceded (not including penalties)
team_match_deep_completions	integer	Successful passes within 20 meters of the opposition goal.
team_match_passing_ratio	double	Passing completion rate.
team_match_pressures	integer	The number of times a team pressures the opponent
team_match_counterpressures	integer	Pressures exerted within 5 seconds of a turnover.
team_match_pressure_regains	integer	Ball is regained within 5 seconds of a player pressuring an opponent.
team_match_counterpressure_regains	integer	Times a team won the ball back within 5 seconds of a player counterpressuring an opponent.

team_match_defensive_action_regains	integer	Times a team won the ball back within 5 seconds of a defensive action by one of their players.
team_match_yellow_cards	integer	How many times a team obtains a second yellow card
team_match_second_yellow_cards	integer	How many times a team obtains a second yellow card
team_match_red_cards	integer	How many red cards the team obtains
team_match_fhalf_pressures	integer	How many pressures are exerted in the opposition (final) half of the pitch.
team_match_fhalf_counterpressures	integer	How many counterpressures are exerted in the opposition (final) half of the pitch.
team_match_fhalf_pressures_ratio	double	How many pressures are exerted in the opposition (final) half of the pitch, as a percentage of their total pressures.
team_match_fhalf_counterpressures_ratio	double	How many counterpressures are exerted in the opposition (final) half of the pitch, as a percentage of their total counterpressures.
team_match_crosses_into_box	integer	Number of crosses into the box
team_match_successful_crosses_into_box	integer	Number of successful crosses into the box
team_match_successful_box_cross_ratio	double	What percentage of a team's completed passes into the box are crosses.
team_match_deep_progressions	integer	Passes, dribbles and carries into the opposition final third.
team_match_deep_progressions_conceded	integer	Passes, dribbles and carries conceded into the opposition final third.
team_match_obv	double	On Ball Value Added (net) total (all event types)
team_match_obv_pass	double	On Ball Value Added (net) from Passes
team_match_obv_shot	double	On Ball Value Added (net) from Shots

team_match_obv_defensive_action	double	On Ball Value Added (net) from Defensive Actions
team_match_obv_dribble_carry	double	On Ball Value Added (net) from Dribbles and Carries
team_match_obv_gk	double	On Ball Value Added (net) Goalkeeper
team_match_obv_conceded	double	Opposition On Ball Value Added (net) total (all event types)
team_match_obv_pass_conceded	double	Opposition On Ball Value Added (net) from Passes
team_match_obv_shot_nconceded	double	Opposition On Ball Value Added (net) from Shots
team_match_obv_defensive_action_conceded	double	Opposition On Ball Value Added (net) from Defensive Actions
team_match_obv_dribble_carry_conceded	double	Opposition On Ball Value Added (net) from Dribbles and Carries
team_match_obv_gk_conceded	double	Opposition On Ball Value Added (net) Goalkeeper
team_match_passes	integer	Number of attempted passes
team_match_successful_passes	integer	Number of successful passes
team_match_passes_conceded	integer	Number of attempted passes by the opposition
team_match_successful_passes_conceded	integer	Number of successful passes by the opposition
team_match_op_passes	integer	Number of attempted passes in open play
team_match_op_passes_conceded	integer	Number of attempted passes in open play against the selected team
team_match_indirect_free_kicks	integer	Number of indirect free kicks awarded
team_match_indirect_free_kicks_conceded	integer	Number of indirect free kicks against awarded
team_match_indirect_free_kick_xg	double	Number of xG resulting from indirect free kicks

team_match_indirect_free_kick_xg_conceded	double	Number of xG against resulting from indirect free kicks
team_match_xg_per_indirect_free_kick	double	Number of xG resulting from indirect free kicks divided by number of indirect free kicks awarded
team_match_xg_per_indirect_free_kick_conceded	double	Number of xG against resulting from indirect free kicks divided by number of indirect free kicks awarded against
team_match_shots_from_indirect_free_kicks	integer	Number of shots resulting from indirect free kicks
team_match_shots_from_indirect_free_kicks_conceded	integer	Number of shots against resulting from indirect free kicks
team_match_goals_from_indirect_free_kicks	integer	Number of goals resulting from indirect free kicks
team_match_goals_from_indirect_free_kicks_conceded	integer	Number of goals against resulting from indirect free kicks
team_match_indirect_free_kick_shot_ratio	double	Ratio of shots resulting from indirect free kicks to total number of indirect free kicks
team_match_indirect_free_kick_shot_ratio_conceded	double	Ratio of shots against resulting from indirect free kicks to total number of indirect free kicks against
team_match_indirect_free_kick_goal_ratio	double	Ratio of goals resulting from indirect free kicks to total number of indirect free kicks
team_match_indirect_free_kick_goal_ratio_conceded	double	Ratio of goals against resulting from indirect free kicks to total number of indirect free kicks against
team_match_aerial_duel_difficulty	double	Average win % of aerial duels contested, as estimated by the HOPS player scores
team_match_aerial_unit_rating	double	Time-weighted average normalised HOPS rating (0 - 1) of the team's top 5 aerial players on pitch
team_match_aerial_team_rating	double	Time-weighted average normalised HOPS rating (0 - 1) of all 11 players on pitch

team_match_time_in_transition	double	Total duration (milliseconds) of the team's on-ball events (passes, shots, carries) that occurred in the transition state (control_degree below 1).
team_match_time_in_control	double	Total duration (milliseconds) of the team's on-ball events (passes, shots, carries) that occurred in the control state (control_degree = 1). Together with team_match_time_in_transition this sums to the team's total on-ball event duration.
team_match_transition_xg	double	Expected goals generated within the In Possession Transition state (before control_degree reaches 1).
team_match_transition_xg_conceded	double	Defensive mirror: xG allowed during the team's own Out of Possession Transition state.
team_match_transition_obv	double	On-ball value generated within the In Possession Transition state.
team_match_transition_obv_conceded	double	Defensive mirror: OBV allowed during the team's own Out of Possession Transition state.
team_match_avg_team_possession_directness	double	Average possession_directness across all the team's possessions.
team_match_avg_team_possession_directness_in_control	double	Average team possession directness filtered to settled possessions (control_degree = 1).
team_match_avg_team_possession_directness_in_transition	double	Average team possession directness filtered to transitional possessions (is_transition = true).
team_match_transition_possession_rate	double	Proportion of the team's possessions that remain in the In Possession Transition state (never reach control_degree = 1). Ratio in [0, 1]. Absent or null when model output is unavailable.
